Github: <https://github.com/kiki-glow>

Objective:

I am a skilled and motivated front-end developer with 2 years of experience in building responsive and user-friendly web applications. Seeking to leverage my expertise in HTML, CSS, JavaScript, and modern frontend frameworks to contribute to a dynamic development team.

Education:

Bachelor of Science in Information Technology

Kabarak University, Nakuru-Kenya

I'm currently a 3rd year student.

Skills:

- Proficient in HTML5, CSS3, JavaScript, and PHP.
- Experience with responsive design techniques and mobile-first development
- Familiarity with version control systems such as Git and Github.
- Knowledge of web performance optimization and best practices
- Ability to collaborate effectively with cross-functional teams
- Excellent problem-solving and troubleshooting skills

Experience:

Front-end Developer as a student in Kabarak University.

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript
- Implemented frontend functionality and user interface enhancements based on project requirements
- Collaborated with design and backend teams to ensure seamless integration of frontend components

- Conducted code reviews and provided feedback to improve code quality and maintainability
- Optimized website performance and loading times through code optimizations and caching strategies

Projects:

- Commercial website for my 2nd year personal project
- My portfolio
- JS Weather App
- To-Do-List App
- QR Code Generator (and many other)
